

Telit to Present at Upcoming Investor Conference

Management Scheduled to Participate in a Panel Discussion at the 2014 RBC Capital Markets' Technology, Internet, Media & Telecommunications Conference on November 10, 2014 in NYC

London, October 28, 2014 – Telit Communications PLC, a global provider of high-quality machine-to-machine (M2M) solutions, products and services, today announced that Yosi Fait, President and Finance Director, will participate in a panel discussion on the subject of convergence – lines blurring between hardware, software, consumer and enterprise – at the 2014 RBC Capital Markets' Technology, Internet, Media & Telecommunications Conference at 10:20 a.m. EST, on November 10, 2014.

The conference will be held November 10-11, 2014 at the Westin Times Square in New York City. Mr. Fait will be available during the conference for one-on-one meetings. Please contact your RBC representative or Miri Segal of Hayden/MS-IR at msegal@ms-ir.com, or by calling +1 917.607.8654, to schedule a meeting.

About Telit

Telit Communications PLC (AIM: TCM) is a global leader in machine-to-machine (M2M) devices, connectivity, value added and cloud services for the market space known as the Internet of Things (IoT). The company's product portfolio includes 2G, 3G, 4G cellular, short-range radio communication modules and positioning (GPS/GNSS) receivers. The **Telit Automotive Solutions** business unit markets products meeting strict Automotive OEM standards for the connected car mobility market. The **m2mAIR** business unit markets value-added services in support of deploying and managing assets under mobile networks including connectivity. Through m2mAIR, the company also markets cloud and PaaS-model services enabling data management, application development, operational management with existing enterprise IT and back-end systems. The company has more than 12 years of sharp focus in M2M and the IoT. Originally a vendor of cellular modules, Telit is now a full-service provider of cellular, short-range wireless and GNSS modules, mobile connectivity, security and cloud-based management solutions. Telit innovates products and services from 8 R&D centers, sells and supports its products and services through a network of 35 sales offices and 60 distributors to more than 5,000 customers in 80 countries around the world.
