

TELIT COMMUNICATIONS PLC

("Telit" or the "Company")

Trading Update for three months ended 31 March 2015 -

22.6% growth in revenues

April 13, 2015 - The Board of Telit (AIM: TCM), a global leader in machine-to-machine (m2m) communications, the chief enabler technology area for the Internet of Things (IoT), is pleased to provide a trading update for the three months ended 31 March 2015.

Telit's revenues for Q1 2015 were \$64.6 million, an increase of 22.6% over the comparable period last year (Q1 2014: \$52.7 million).

The Board expects that trading for the full year 2015 will be in-line with market expectations.

Oozi Cats, Chief Executive of Telit, said "I am pleased to report Telit has had a good three months. Full year revenues are expected to continue our strong growth rate of about 20%. We continue to see robust performance from the automotive product line and the Platform as a Service (PaaS). Both offerings are making good progress and I expect they will widen our addressable market and increase our opportunities for growth in future years".
